DENTAL
Are you interested in a different type of international trip? Join a team of researchers, faculty, and students to Israel to be part of a unique, once-in-a-lifetime opportunity to better understand how knowledge in craniofacial development can inform us about archaeology and anthropology. The research team has published preliminary findings in Nature (28 January 2015) that has garnered interest around the world. Additional information can be gleaned from the project Facebook page (manotcaveproject).

Case Western Reserve University School of Dental Medicine is a partner in this dig and is organizing two volunteer student groups to assist in the research: July 10-21 and July 24-August 4, 2016. Meals and lodging are included.

Contact the coordinator Yvonne McDermott (ypm@case.edu) for more details as spaces filled up quickly last year for this opportunity.
University of the Pacific Arthur A. Dugoni School of Dentistry

Predental Clinical Simulation Course

Want to experience what it’s like to be a dentist + dental student?

This two-day course in will give you hands-on experience and insight into dental school and the dental profession.

You will work in Pacific Dugoni’s state-of-the-art pre-clinical simulation lab and receive helpful information on applying to dental school.

When: April 16 & 17

Where: 155 Fifth St. San Francisco, CA 94103

Registration Deadline: Thursday, March 24

To Register + Info: visit us online http://www.dental.pacific.edu/News_and_Events/Events_Calendar/Predental_Clinical_Simulation_Course_2016.html

Note: This course is limited to 50 students. Students will be selected by lottery due.

PODIATRY

The California School of Podiatric Medicine at Samuel Merritt University is pleased to announce the return of Podiatry 3D—our three day podiatry immersion and workshop program that provides participants with an opportunity to explore the profession of Podiatric Medicine and Surgery. Please spread the word among your students who might be interested in exploring the profession.

Podiatry 3D Immersion Program at the California School of Podiatric Medicine
Oakland, CA
July 20-22, 2016
http://samuelmerritt.edu/pod3d

During the Podiatry 3D program, students will:

• Have an invaluable learning experience and an opportunity to explore the profession of podiatry
- Interact with faculty and students in a variety of settings
- Participate in a full day MCAT workshop, learn and understand the increase need for podiatric physicians in medicine
- Experience a hands-on clinical day learning how to cast, sports taping and much more!

Students who are interested in the program should submit their application to attend (available on the website) by May 20, 2016. Students should have a minimum of 40 semester units of undergraduate coursework completed.

For more information about the program, visit our Podiatry 3D website.
